Subject: Follow up from this mornings 9am call about Freedom Industries

Hi Adam,

I spoke with Freedom Industries they have not signed the official demolition contract, but when they do they will provide me the name of the contractor. I also let them know that OSHA would like to be on-site during the cutting of the tanks, so they will provide 24 hour notice prior to cutting of the tanks to the local OSHA contact who has been on-site previously. Currently the anticipated date for starting to cut the tanks (393 & 304) is March 10th, but all of that is dependent upon the demolition plan being approved by all litigants and creditors as a part of the bankruptcy settlement.

Melissa
